The Project Resource Manual (PRM) The Construction Specifications Institute 2004-10-07 This is the leading reference on the organization, preparation, and use of construction information and the only one to cover the construction process from planning and design to construction administration. It details the basic practices involved in project delivery systems, cost estimating, construction documents, and code appliance. This new edition expands that scope to include information on project conception and project representation., This material, combined with a full complement of documents, contracts, and forms, makes this the single most comprehensive practice reference in the construction industry.

Field-Programmable Logic and Applications International Workshop on Field-Programmable Logic and Applications 1995-08-21 This volume constitutes the proceedings of the Fifth International Workshop on Field-Programmable Logic and Its Applications, FPL '95, held in Oxford, UK in August/September 1995. The volume presents 46 full revised papers carefully selected by the program committee from a large number and wide range of submissions. The papers document the progress achieved since the predecessor conference (see LNCS 849). They are organized in sections on architectures, platforms, tools, arithmetic and signal processing, embedded systems and other applications, and reconfigurable design and models.

The Project Resource Manual (PRM) : CSI Manual of Practice, 5th Edition The Construction Specifications Institute 2004-09-16 The authoritative resource for the organization, preparation, use, and interpretation of construction documents encompassing the entire life cycle of a facility. This new edition considers the need for interdependent processes of design, construction and facility use. The Fifth Edition expands the scope of the manual to meet the requirements of all participants involved in a construction project in a stage-by-stage progression, including owners, A/Es, design-builders, contractors, construction managers, product representatives, financial institutions, regulatory authorities, attorneys, and facility managers. It promotes a team model for successful implementation.
