Attack of the Copula Spiders Douglas Glover 2012-03-27 A GLOBE & MAIL BEST BOOK OF THE YEAR FOR 2012 "Glover is a master of narrative structure." -Wall Street Journal In the tradition of E.M. Forster, John Gardner, and James Wood, Douglas Glover has produced a book on writing at once erudite, anecdotal, instructive, and amusing. Attack of the Copula Spiders represents the accumulated wisdom of a remarkable literary career: novelist, short story writer, essayist, teacher and mentor, Glover has for decades been asking the vital questions. How does the way we read influence the way we write? What do craft books fail to teach aspiring writers about theme, about plot and subplot, about constructing point of view? How can we maintain drama on the level of the sentence-and explain drama in the sentences of others? What is the relationship of form and art? How do you make words live? Whether his subject is Alice Munro, Cervantes, or the creative writing classroom, Glover's take is frank and fresh, demonstrating again and again that graceful writers must first be strong readers. This collection is a call-to-arms for all lovers of English, and Attack of the Copula Spiders our best defense against the assaults of a post-literate age. Douglas Glover is the award-winning author of five story collections, four novels, and two works of non-fiction. He is currently on the faculty of the Vermont College of Fine Arts MFA in Writing program. Praise for Douglas Glover "So sharp, so evocative, that the reader sees well beyond the tissue of words into ... the author's poetic grace." - The New Yorker "Glover invents his own assembly of critical approaches and theories that is eclectic, personal, scholarly, and smart ... a direction for future literary criticism to take." - The Denver Quarterly "A ribald, raunchy wit with a talent for searing self-investigation." - The Globe and Mail "Knotty, intelligent, often raucously funny." - Maclean's "Passionately intricate." - The Chicago Tribune "Darkly humorous, simultaneously restless and relentless." - Kirkus Reviews

Attention All Shipping Charlie Connelly 2011-06-02 This solemn, rhythmic intonation of the shipping forecast on BBC radio is as familiar as the sound of Big Ben chiming the hour. Since its first broadcast in the 1920s it has inspired poems, songs and novels in addition to its intended objective of warning generations of seafarers of impending storms and gales. Sitting at home listening to the shipping forecast can be a cosily reassuring experience. There's no danger of a westerly gale eight, veering southwesterly increasing nine later (visibility poor) gusting through your average suburban living room, blowing the Sunday papers all over the place and startling the cat. Yet familiar though the sea areas are by name, few people give much thought to where they are or what they contain. In ATTENTION ALL SHIPPING Charlie Connelly wittily explores the places behind the voice, those mysterious regions whose names seem often to bear no relation to conventional geography. Archaic travel will never be the same again.

Attaining Your Desires Genevieve Behrend 2017-01-30 If You Could Talk To The Greatest Master of This Century - What Would You Ask? The sages of the centuries, each one tincturing their thought with their own soul essence, have united in telling us that, "As a man thinketh in his heart, so is he." It has been established by the experience of the ages that always the law is the same. But HOW shall one think in their heart, so that only goodness may blossom and ripen into rich deed and rare result? What is the apparently mysterious secret by which life's dull metal is transmuted into precious mintage? As Troward has said, "Thought is the only action of the mind. By your habitual thoughts you create corresponding external physical conditions, because you thereby create the nucleus which attracts to itself its own correspondence, in due order, until the finished work is manifested on the material plane." Let us work together to this end. G.B (from the Foreward) Get Your Copy Now!

Atrocitas Agua David Bowlin 2003-02-01 Herman Melville said it best when he proclaimed that every path eventually leads to the sea. For it is the sea that holds our most sacred and terrifying fears, yet it also holds a glorious mysticism over us as a race, an attraction so strong that most of us flock to beaches, river banks, creeks, and lakes at every opportunity to stare out into the vast blueness and wonder: what's out there?Take my hand, Dear Reader, and swim with me through this journey of sixteen tales of watery terror. As we swim, if something reaches out of the darkness and gropes for your ankle, if something pulls you deeper into the depths of liquid madness, if your breath is stolen from you and you find yourself inhaling nothing but muddied water... do not fear, for it is just the ocean reclaiming what is already hers: your soul.
