*Atlanta Compromise* Booker T. Washington 2014-03  
The Atlanta Compromise was an address by African-American leader Booker T. Washington on September 18, 1895. Given to a predominantly White audience at the Cotton States and International Exposition in Atlanta, Georgia, the speech has been recognized as one of the most important and influential speeches in American history. The compromise was announced at the Atlanta Exposition Speech. The primary architect of the compromise, on behalf of the African-Americans, was Booker T. Washington, president of the Tuskegee Institute. Supporters of Washington and the Atlanta compromise were termed the "Tuskegee Machine." The agreement was never written down. Essential elements of the agreement were that blacks would not ask for the right to vote, they would not retaliate against racist behavior, they would tolerate segregation and discrimination, that they would receive free basic education, education would be limited to vocational or industrial training (for instance as teachers or nurses), liberal arts education would be prohibited (for instance, college education in the classics, humanities, art, or literature). After the turn of the 20th century, other black leaders, most notably W. E. B. Du Bois and William

Monroe Trotter - (a group Du Bois would call The Talented Tenth), took issue with the compromise, instead believing that African-Americans should engage in a struggle for civil rights. W. E. B. Du Bois coined the term "Atlanta Compromise" to denote the agreement. The term "accommodationism" is also used to denote the essence of the Atlanta compromise. After Washington's death in 1915, supporters of the Atlanta compromise gradually shifted their support to civil rights activism, until the modern Civil rights movement commenced in the 1950s. Booker Taliaferro Washington (April 5, 1856 - November 14, 1915) was an African-American educator, author, orator, and advisor to presidents of the United States. Between 1890 and 1915, Washington was the dominant leader in the African-American community. Washington was of the last generation of black American leaders born into slavery and became the leading voice of the former slaves and their descendants, who were newly oppressed by disfranchisement and the Jim Crow discriminatory laws enacted in the post-Reconstruction Southern states in the late 19th and early 20th centuries. In 1895 his Atlanta compromise called for avoiding confrontation over segregation and instead putting more reliance on long-term educational and economic advancement in the black community.

**The Jungle** Upton Sinclair 2017-06-19 The Jungle is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, *Appeal to Reason*, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Holes Louis Sachar 2020-11-05 Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp Green Lake Juvenile Detention Centre. Nor is he very surprised when he is told that his daily labour at the camp is to dig a hole, five foot wide by five foot deep, and report anything that he finds in that hole. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot.

*Outliers* Malcolm Gladwell 2008-11-18 From the  
 bestselling author of *Blink* and *The Tipping Point*,  
 Malcolm Gladwell's *Outliers: The Story of Success*  
 overturns conventional wisdom about genius to  
 show us what makes an ordinary person an  
 extreme overachiever. Why do some people  
 achieve so much more than others? Can they lie  
 so far out of the ordinary? In this provocative and  
 inspiring book, Malcolm Gladwell looks at  
 everyone from rock stars to professional athletes,  
 software billionaires to scientific geniuses, to  
 show that the story of success is far more  
 surprising, and far more fascinating, than we  
 could ever have imagined. He reveals that it's as  
 much about where we're from and what we do,  
 as who we are - and that no one, not even a  
 genius, ever makes it alone. *Outliers* will change  
 the way you think about your own life story, and  
 about what makes us all unique. 'Gladwell is not  
 only a brilliant storyteller; he can see what those  
 stories tell us, the lessons they contain' Guardian  
 'Malcolm Gladwell is a global phenomenon ... he  
 has a genius for making everything he writes  
 seem like an impossible adventure' Observer 'He

 you feel like you're a genius, rather than he's a  
 genius' The Times

*The Future of Nursing* Institute of Medicine

2011-02-08 The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in

America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.
