[Prince2 Foundation Training Manual](#) Van Haren Publishing 2017-01-15 Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

[Warmed and Bound](#) Pela Via 2011-07-01 From the heart of The Velvet a writing community built around the fervent love of neo-noir fiction comes an original anthology. Stacked with brilliant emerging writers alongside some of the strongest established voices in contemporary literature, WARMED AND BOUND crosses literary boundaries on all sides, to deliver an altogether unique reading experience. Through seemingly opposed conventions, beautiful prose makes a hard impression on the short story form. From a scary love story to a nostalgic thriller, a hardboiled pursuit of salvation to the black humor that is existentialism, WARMED AND BOUND is rogue humility and lovesick noir, where humanity is a dirty puzzle. It 's Velvet Noir. Welcome. [Danger on the Page](#) Brian Shawver 2015-04-07 Although fiction writers must concern themselves with "big picture" issues such as plot, theme, and character development, much of the day-to-day work of writing involves finding answers to seemingly minor questions: How should I describe the exterior of a house? How can I construct the voice of a historical narrator with authenticity? How should I depict a physically atypical character? Few books on the market address the problems

and opportunities present in these and other questions, yet they are the ones that most writers grapple with on a daily basis. *Danger on the Page: A Fiction Writer's Guide to Sex, Violence, Dead Narrators, and Other Challenges* identifies and explores some of the more common and intractable situational challenges of fiction writing, with chapters grouped into the general subject areas such as scenes, characters, points of view, and settings. Shawver delves into the pitfalls and opportunities of writing about sex, violence, sports, and love; he examines writing from the perspective of a different race, gender, or species; he interrogates conventional beliefs about the use of brand names, the description of architecture, and the portrayal of nature. Throughout, he gives dozens of examples from both literary and commercial fiction so readers can borrow (or reject) other writers' techniques and explore the myriad challenges of fiction writing on their own. A lively and witty approach to a diverse range of specific writing issues, Shawver's book will appeal especially to intermediate-level writers seeking to bring their craft to the next level.

The Pocket Guide to Restorative Justice Pete Wallis 2007-12-15 This pocket-sized guide can be taken conveniently to meetings, interviews and visits, to be used as a quick reference point for information about the practical application of restorative justice. The book covers every stage of the process, from how a facilitator should prepare for taking on a new case, through initial contacts with victim and offender and facilitating meetings, to recording and evaluating a case. While acknowledging throughout the different possible ways of proceeding, the authors provide example prompts for steps such as writing to a victim for the first time, talking to the victim and offender ahead of their meeting, and initiating meetings. They use jargon-free language and provide helpful task checklists for speed and ease of reference. This is an invaluable companion for youth offending team workers, probation officers, prison staff, police, referral order volunteers, mediators and any professional needing to know about restorative justice.

Ties That Bind, Ties That Break Lensey Namioka 2007-12-18 Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.

Harnessing AutoCAD 2004 Exercise Manual Thomas A. Stellman 2003-08 This most recent edition of Harnessing AutoCAD continues in the tradition of previous versions by providing the widest

selection of discipline-specific exercises and projects for learning how to use today's leading desktop design and drawing software. A smart how-to and reference manual, *Harnessing AutoCAD 2004* contains up-to-the-minute functionality including extensively illustrated examples of 'prompt-response' sequences, whereby certain commands prompt users for additional information such as coordinates or dimensions to complete a function. The companion Exercise Manual has been also been updated, featuring problems in complete project format for practicing concepts and commands learned in chapter or section, as well as for testing single concepts and commands. This complete package is appropriate for either the novice or advanced user. The companion Exercise Manual provides more than 200 discipline-specific exercises and projects for learning how to use today's leading desktop design and drawing software. Updated to AutoCAD 2004, the manual features problems in complete project format that help readers practice concepts and commands modeled on AutoCAD use in the architectural, mechanical, electrical, and civil fields.

Community Rehabilitation in Neurology Michael P. Barnes 2003-09-04 Rehabilitation should not stop when the disabled person is discharged from hospital, and many neurological patients require ongoing rehabilitation in order to maximize their functional abilities, minimize complications and promote full participation at home and in the community. This book analyses community rehabilitation needs from many different perspectives, including the views of disabled people, rehabilitation clinicians and service providers. Many examples of community rehabilitation schemes are presented, with evidence for their effectiveness, and case studies are used to highlight the main issues. The authors take an international view, and there are chapters dealing with the disabled child in the community and with neuropsychological rehabilitation. This important book examines the growing trend towards community rehabilitation in neurology and is directed towards all clinicians involved with neurorehabilitation.

Guidebook to Molecular Chaperones and Protein-Folding Catalysts Mary-Jane Gething 1997-11-27 The precise shape of a protein is a crucial factor in its function. How do proteins become folded into the right conformation? Molecular chaperones and protein folding catalysts bind to developing polypeptides in the cytoplasm and ensure correct folding and transport. This Guidebook catalogues the latest information on nearly 200 of these molecules, including the important class of heat shock proteins; each entry is written by leading researchers in the field.

How to Write an Exceptional Thesis Or Dissertation J. S. Graustein 2014-06-30 According to the Council of Graduate Schools, only 57 percent of students who start their Ph.D.s complete them within ten years, and many times it's the thesis or dissertation that is holding them back. In this book, you will gain insight regarding the entire research process, from organizing your literature and materials most effectively to analyzing and evaluating the big picture for defense. You will learn how to locate and recognize a topic that is appropriate for your thesis or dissertation, and you will discover how to expand on the subject matter to ensure it's unique and distinct from any other research out there. This book will ensure that your argument is strong, sound, and persuasive throughout your entire thesis or dissertation, from the introductory chapter through the summarizing conclusive statements, and you will learn how to do so without plagiarizing or cutting corners. You will master how to write ethically, objectively, and properly according to your academic subject's standards. With this book as your guide, you will even find out how your research can take you from a proposal to a published writing career. With this book, you will learn everything from the ground-level basics to the more detailed breakdown of the research process. You will gain a strong understanding of the difference between a thesis and dissertation, and you will grasp the components expected of your work "regardless of the subject matter of your research. This book will walk you through the entire process step-by-step, teaching you how to structure a planning and writing schedule that will keep the process manageable and not overwhelming. Free Radicals in Biology William Pryor 2012-12-02 Free Radicals in Biology, Volume V covers the mechanisms for the generation of free radicals. This volume contains eight chapters that discuss the biology and chemistry of oxy-radicals in mitochondria and the radical-mediated metabolism of xenobiotics. The opening chapter describes the mechanisms of free radical production in enzymatically promoted lipid peroxidation, generally in microsomes or microsomal lipids. The subsequent chapters explore the biochemistry and biology of plant and animal lipoxygenases; the production of superoxide and hydrogen peroxide in mitochondria; and the biological role of these species in mitochondria and related systems. The discussions then shift to the effects of superoxide production in white blood cells, with an emphasis on an evaluation of the oxygen-dependent reactions of the important phagocytic cells, the monocytes, and the polymorphonuclear leukocytes. This volume further covers the formation and the role of oxy-radicals in the red blood cell, which is a very useful system for studying the protection of biological tissue against radical-mediated damage. A chapter presents a comprehensive review of the production of free radicals during the metabolism of xenobiotics. The last chapters provide an overview of the enzymology, biological functions, and free radical chemistry of glutathione peroxidase. These chapters also examine a number of gerontological principles and the effect of antioxidants in aging. Chemists, biologists, and physicists will find this book of great value.

Manual of Psychosocial Rehabilitation Robert King 2012-08-06 Psychosocial Rehabilitation is a comprehensive ready-reference for mental health practitioners and students, providing practical advice on the full range of interventions for psychosocial rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms, cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for interventions effectively provided as group activities. Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions not requiring professional or practitioner direction.

Eutrophication Management and Ecotoxicology Martin C.T. Scholten 2006-03-30 This book bridges the gap between ecotoxicology and limnology, offering an ecotoxicological perspective on

lake management. The text describes eutrophication of shallow, temperate lakes, and examines the influence of toxic substances on the aquatic ecosystem, and proposes that nutrients like phosphorus are not the only important factor in explaining and managing eutrophication. Draws on a range of studies and experiments, some presented here for the first time.

Grannies, Inc. Guide to Knitting Katie Mowat 2012-10-25 When it comes to knitting, who knows better than our nan? If you get tangled in a ball of wool, she's always the first person you call to help you sort your cross stitch from your cable. While recruiting for her fledgling online knitwear company, Katie Mowat swiftly realised that it was mainly older women, namely grannies, who were volunteering their services, and so Grannies Inc. was born. Since 2009 they have gone from strength to strength, and from one product (beanies), they now design and produce a whole range of knitwear. Her crack squad of 15 grannies will be contributing their 'purls' of wisdom and patterns to help the new knitting generation in this attractive book. With knitting patterns for snoods, legwarmers, slouch socks, laptop cases and beanies, you'll be cool and cosy in no time. As the grannies say, 'May your bobbin always be full.'
