Rena worked as a slave laborer with scarcely any food and watched as friends and family were sent away. Then Rena and her mother ended up working for Oskar Schindler, a German businessman who employed Jewish prisoners in his factory and kept them fed and healthy. But Rena's nightmares were not over. She and her mother were deported to the concentration camp Auschwitz. With great cunning, it was Schindler who set out to help them escape. Here in her own words is Rena's gripping story of survival, perseverance, tragedy, and hope. Including pictures from Rena's personal collection and from the time period, this unforgettable memoir introduces young readers to an astounding and necessary piece of history.

The Holocaust Norman Goda 2016-11-03 The Holocaust: Europe, the World, and the Jews is a readable text for undergraduate students containing sufficient but manageable detail. The author provides a broad set of perspectives, while emphasizing the Holocaust as a catastrophe emerging from an international Jewish question. This text conveys a sense of the Holocaust's many moving parts. It is arranged chronologically and geographically to reflect how persecution, experience, and choices varied over different periods and places. Instructors may also take a thematic approach, as the chapters have distinct sections on such topics as German decisions, Jewish responses, bystander reactions, and other themes.

Open Heart Elie Wiesel 2015-09-29 The author, at age eighty-two, was told that he needed immediate surgery to clear his blocked arteries. On what he knew might very well be his deathbed, he reflected on his many losses and accomplishments, and on all that remained to be done. Fortunately, he survived the life-threatening heart surgery to turn those reflections into a book which discusses his affection for his family both departed and still living, his aspirations for his writing, and his hope that he improved the world

The Palgrave Handbook of Holocaust Literature and Culture Victoria Aarons 2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation. The chapters consider diverse generational perspectives—survivor writing, second and third generation—and genres—memoirs, poetry, novels, graphic narratives, films, video-testimonies, and other forms of literary and cultural expression. In turn, these perspectives create interactions among generations, genres, temporalities, and cultural contexts. The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past. As such, the chapters in this volume pose options for reading Holocaust texts, offering openings for further discussion and exploration. The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story, a narrative that materially extends our inquiry into that history.

The Sunflower Simon Wiesenthal 2008-12-18 A Holocaust survivor's surprising and thought-provoking study of forgiveness, justice, compassion, and human responsibility, featuring contributions from the Dalai Lama, Harry Wu, Cynthia Ozick, Primo Levi, and more. While imprisoned in a Nazi concentration camp, Simon Wiesenthal was taken one day from his work detail to the bedside of a dying member of the SS. Haunted by the crimes in which he had participated, the soldier wanted to confess to--and obtain absolution from--a Jew. Faced with the choice between compassion and justice, silence and truth, Wiesenthal said nothing. But even years after the way had ended, he wondered: Had he done the right thing? What would you have done in his place? In this important book, fifty-three distinguished men and women respond to Wiesenthal's questions. They are theologians, political leaders, writers, jurists, psychiatrists, human rights activists, Holocaust survivors, and victims of attempted genocides in Bosnia, Cambodia, China and Tibet. Their responses, as varied as their experiences of the world, remind us that Wiesenthal's questions are not limited to events of the past.

Pearl is in charge of: the sad, the good, the past. Stasha must care for: the funny, the future, the bad. It's 1944 when the twin sisters arrive at Auschwitz with their mother and grandfather. In their benighted new world, Pearl and Stasha Zagorski take refuge in their identical natures, comforting themselves with the private language and shared games of their childhood. As part of the experimental population of twins known as Mengele's Zoo, the girls experience privileges and horrors unknown to others, and they find themselves changed, stripped of the personalities they once shared, their identities altered by the burdens of guilt and pain. That winter, at a concert orchestrated by Mengele, Pearl disappears. Stasha grieves for her twin, but clings to the possibility that Pearl remains alive. When the camp is liberated by the Red Army, she and her companion Feliks--a boy bent on vengeance for his own lost twin--travel through Poland's devastation. Undeterred by injury, starvation, or the chaos around them, motivated by equal parts danger and hope, they encounter hostile villagers, Jewish resistance fighters, and fellow refugees, their quest enabled by the notion that Mengele may be captured and brought to justice within the ruins of the Warsaw Zoo. As the young survivors discover what has become of the world, they must try to imagine a future within it. A superbly crafted story, told in a voice as exquisite as it is boundlessly original, MISCHLING defies every expectation, traversing one of the darkest moments in human history to show us the way toward ethereal beauty, moral reckoning, and soaring hope.

Encyclopedia of Case Study Research Albert J. Mills 2010 Case study research has a long history within the natural sciences, social sciences, and humanities, dating back to the early 1920's. At first it was a useful way for researchers to make valid inferences from events outside the laboratory in ways consistent with the rigorous practices of investigation inside the lab. Over time, case study approaches garnered interest in multiple disciplines as scholars studied phenomena in context. Despite widespread use, case study research has received little attention among the literature on research strategies. The

Holocaust in History and Life Writing. An analysis of the parallels between historical resources and life writing and the use of historical symbols and knowledge in the life writing novels or memoirs "Maus and Night". Sina Laura Rautmann 2017-07-14 Seminar paper from the year 2016 in the subject English - Literature, Works, grade: 1,3, Leuphana Universität Lüneburg, language: English, abstract: “Again the Holocaust?!...” is the answer, a lot of pupils ask when the topic is brought up in school. This might derive from the way the holocaust is taught: mainly fact based without personal encounter of survivors or personal stories. A different approach could be to read novels and memoirs of holocaust survivors to bring more personal aspects into the classroom. But my hypotheses is that – in order to understand those novels – the readers need historical basic knowledge about the holocaust. I assume that memoir authors use symbols and images that refer to the happenings without further explanation. By doing this, they leave more space for personal and emotional stories that cannot be found in pure fact based books or encyclopedias about the holocaust. To get a full picture of the holocaust and understand the novels completely the reader needs to know the meaning of certain symbols for example “chimneys” or “death marches.” In order to analyze this theory, I am going to use historical literature as a reference point to see what events are neutrally described and taught as facts. Then I will compare these facts to the novels *The Complete Maus* by Art Spiegelman and *Night* by Elie Wiesel to see whether they took time to explain the events more detailed or whether they just refer to a symbol or happening that would be counted as ‘common knowledge’. First I will give an introduction to the novels to summarize their story and highlight peculiarities and differences. In this part, I will also give an overview over the historical literature that will be the basis for this paper. In the second part I will highlight the most important facts, symbols, and images that are connected with holocaust events and recognized as general knowledge. I will explain them shortly and present passages from the books that refer to these events. In the end I will test my hypotheses and explain whether it has been proven as a true statement or not. I will present my conclusion on the importance of memoirs and historical resources for a general overview on the topic of the Holocaust and NS- regimes.

Elie Wiesel Frederick L. Downing 2008 Elie Wiesel: A Religious Biography argues that Wiesel's religious faith is the driving force behind Wiesel's status as a moral authority'that he is essentially a generative religious personality, a poet-prophet'who deepened his own particular Jewish vision to eventually become a "link" with humanity. As a religious genius and spiritual innovator of the post-modern era, Wiesel is a conflicted individual who joins his own personal and existential struggle for meaning and identity with the quest of the oppressed after the Holocaust.

In the summer of 1948, twelve-year-old David Hayden witnessed and experienced a series of cataclysmic events that would forever change the way he saw his family. The Haydens had been pillars of their small Montana town: David’s father was the town sheriff; his uncle Frank was a war hero and respected doctor. But the family’s solid foundation was suddenly shattered by a bombshell revelation. The Hayden’s Sioux housekeeper, Marie Little Soldier, tells them that Frank has been sexually assaulting his female Indian patients for years—and that she herself was his latest victim. Ethnic Realignments Matthew Hoddie 2006 Ethnic Realignments offers a fresh look at the phenomenon of rapidly changing ethnic identity claims. By focusing on the countries of Australia, China, Malaysia, and India, Matthew Hoddie provides a comparative study arguing that government policies designed to favor one ethnic group over another can influence individuals among the disfavored group to change their 'identities' and recast themselves as members of the favored group. Hoddie employs a statistical methodology to lay out the conditions and factors that lead to these ethnic identity changes, thereby contributing to the ongoing debate concerning the malleability of ethnic identity. Ethnic Realignments is a significant work for scholars interested in the politics of ethnicity and the effectiveness of affirmative action policies.

The Color of Water James McBride 2006-02-07 From the bestselling author of Deacon King Kong and the National Book Award-winning The Good Lord Bird: The modern classic that spent more than two years on The New York Times bestseller list and that Oprah.com calls one of the best memoirs of a generation. Who is Ruth McBride Jordan? A self-declared "light-skinned" woman evasive about her ethnicity, yet steadfast in her love for her twelve black children. James McBride, journalist, musician, and son, explores his mother's past, as well as his own upbringing and heritage, in a poignant and powerful debut, *The Color Of Water: A Black Man's Tribute to His White Mother*. The son of a black minister and a woman who would not admit she was white, James McBride grew up in "orchestrated chaos" with his eleven siblings in the poor, all-black projects of Red Hook, Brooklyn. "Mommy," a fiercely protective woman with "dark eyes full of pep and fire," herded her brood to Manhattan's free cultural events, sent them off on buses to the best (and mainly Jewish) schools, demanded good grades, and commanded respect. As a young man, McBride saw his mother as a source of embarrassment, worry, and confusion—and reached thirty before he began to discover the truth about her early life and long-buried pain. In *The Color of Water*, McBride retraces his mother's footsteps and, through her searing and spirited voice, recreates her remarkable story. The daughter of a failed itinerant Orthodox rabbi, she was born Rachel Shilsky (actually Ruchel Dwara Zylska) in Poland on April 1, 1921. Fleeing pogroms, her family emigrated to America and ultimately settled in Suffolk, Virginia, a small town where anti-Semitism and racial tensions ran high. With candor and immediacy, Ruth describes her parents' loveless marriage; her fragile, handicapped mother; her cruel, sexually-abusive father; and the rest of the family and life she abandoned. At seventeen, after fleeing Virginia and settling in New York City, Ruth married a black minister and founded the all- black New Brown Memorial Baptist Church in her Red Hook living room. "God is the color of water," Ruth McBride taught her children, firmly convinced that life's blessings and life's values transcend race. Twice widowed, and continually confronting overwhelming adversity and racism, Ruth's determination, drive and discipline saw her dozen children through college—and most through graduate school. At age 65, she herself received a degree in social work from Temple University. Interspersed throughout his mother's compelling narrative, McBride shares candid recollections of his own experiences as a mixed-race child of poverty, his flirtations with drugs and violence, and his eventual self- realization and professional success. *The Color of Water* touches readers of all colors as a vivid portrait of growing up, a haunting meditation on race and identity, and a lyrical valentine to a mother from her son.

The City After The Automobile Moshe Safdie 2018-02-23 In an age of virtual offices, urban flight, and planned gated communities, are cities becoming obsolete? In this passionate manifesto, Moshe Safdie argues that as crucibles for creative, social, and political interaction, vital cities are an organic and necessary part of human civilization. If we are to rescue them from dispersal and decay, we must first revise our definition of what constitutes a city. Unlike many who believe that we must choose between cities and suburbs, between mass transit and highways, between monolithic highrises and panoramic vistas, Safdie envisions a way to have it all. Effortless mobility throughout a region of diverse centers, residential communities, and natural open spaces is the key to restoring the rich public life that cities once provided while honoring our profound desire for privacy, flexibility, and freedom. With innovations such as transportation nodes, elevated moving sidewalks, public utility cars, and buildings designed to maximize daylight, views, and personal interaction, Safdie's proposal challenges us all to create a more satisfying and humanistic environment.
